SKILLS

- **Languages**: C, C++, Java, Python, JavaScript, HTML5, CSS3
- **Frameworks**: HTML and CSS, Bootstrap, NodeJS, ReactJS
- **Tools/Platforms**: MySQL, Jupyter Notebook, GitHub
- **Soft Skills**: Problem-Solving, Collaborative, Consistency, Adaptability, Organized

PROJECTS

Fake Social Media Account Detection | *Python, Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn* Oct'25

- **Designed and developed a machine learning-based classification system** to detect fake social media accounts by **performing data preprocessing, exploratory data analysis, and feature engineering** on structured profile datasets, incorporating features such as follower-following ratio, username similarity score, profile picture presence, and user activity metrics to improve prediction capability.
- Implemented and compared multiple supervised learning algorithms including **K-Nearest Neighbors (KNN), Decision Tree, Random Forest, and Support Vector Machine (SVM)**, applying feature scaling techniques (StandardScaler, MinMaxScaler) and hyperparameter tuning using GridSearchCV to optimize performance and reduce overfitting.
- Achieved **98% training accuracy and 96% testing accuracy** using the optimized Random Forest model, validated through 5-fold cross-validation and **evaluated using Accuracy, Precision, Recall, F1-Score, Confusion Matrix, and ROC-AUC** to ensure strong generalization and model robustness.

Tour Managing Website | *HTML5, CSS3, React.js, Tailwind CSS* Oct' 24

- **Crafted a full-featured** Tour Managing Website enabling users to explore destinations, manage bookings, and view personalized itineraries.
- Designed and **implemented dynamic UI components using React.js and Tailwind CSS**, improving interface responsiveness and load speed by 25%.
- Deployed the website with **interactive dashboards, achieving an intuitive and user-friendly interface** with positive feedback from test users.

TRAINING

Cipher School Jun' 24 – Jul' 30

Data Structures and Algorithms (Coding profile)

- Completed an intensive training program focused on **Data Structures and Algorithms**.
- Gained expertise in advanced topics such as **Arrays, Linked list, Stack, Queues, Trees, and Graphs**.
- Practiced and solved **300+ problems on platforms like LeetCode and GeeksforGeeks**.
- Strengthened analytical and problem-solving skills through coding challenges.

CERTIFICATES

- Data Structure and Algorithms | Cipher School
- Master Generative AI & Generative AI tools Basics | Coursera
- C Programming Specialization | Infosys

ACHIEVEMENT

- Solved 400+ DSA problems across platforms like LeetCode and GeeksforGeeks, strengthening problem-solving and algorithmic thinking skills | LPU Jul 2024

EDUCATION

- **Lovely Professional University** Phagwara, Punjab
  Bachelor of Technology - Computer Science and Engineering Aug 2023 – Present
  CGPA: 8.84
- **Air Force School** Agra, Uttar Pradesh
  Intermediate Apr 2022 – Mar 2023
  Percentage: 82%
- **Air Force School** Agra, Uttar Pradesh
  Intermediate Apr 2020– Mar 2021
  Percentage: 81%
